V00 D00 AXLES

Providing you with the most complete driveline coverage in the ATV & UTV Aftermarket.

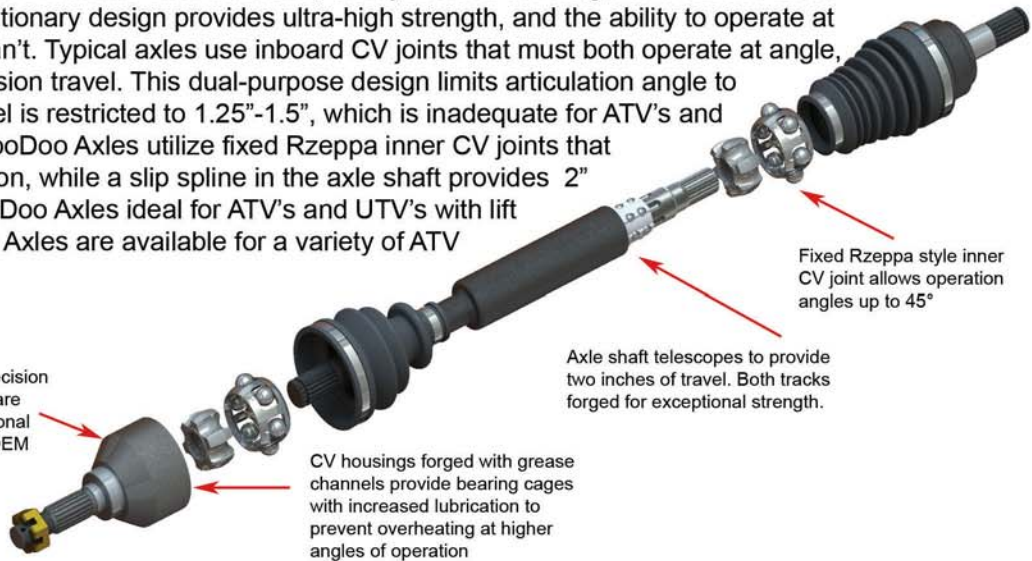

MotorMasterPowersports.com

For Ultimate Axle Strength and Articulation... You Need the Power of VooDoo!

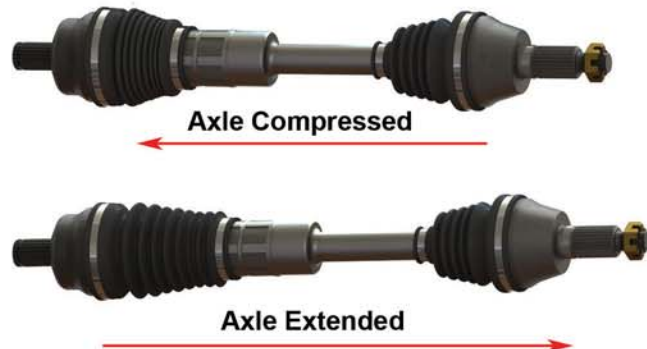

If your ATV or UTV sees extreme off road action, then you need the magic of VooDoo Axles. VooDoo Axles' revolutionary design provides ultra-high strength, and the ability to operate at angles other axles can't. Typical axles use inboard CV joints that must both operate at angle, and allow for suspension travel. This dual-purpose design limits articulation angle to about 25°, while travel is restricted to 1.25"-1.5", which is inadequate for ATV's and UTV's with lift kits. VooDoo Axles utilize fixed Rzeppa inner CV joints that allow 45° of articulation, while a slip spline in the axle shaft provides 2" of travel. Making VooDoo Axles ideal for ATV's and UTV's with lift kits up to 3". VooDoo Axles are available for a variety of ATV and UTV models.

All CV Joints start as a precision hot forged mold and then are cold forged to add exceptional strength that will exceed OEM

VooDoo Magic Allows Axles to Extend and Compress 2 Inches!

To accommodate suspension travel, VooDoo Axles utilize a slip spline that allows the axle to compress and extend 2". The long travel especially benefits lifted vehicles as it helps to prevent disengagement of the inner CV joint from the transaxle when the suspension is at full droop. Telescoping axle bars are carried on linear motion ball bearings for smooth action that won't bind under load.

Providing the most complete driveline coverage in the ATV & UTV aftermarket

UNIVERSAL JOINTS

Motor Master Powersports provides the most extensive U-Joint coverage in the ATV and UTV market! With almost 30 different U-Joint kits available it's very likely we have the U-Joint you need for your Artic Cat, Can-Am Bombardier, Honda, Japanese Mini trucks, Kawasaki, Kubota, Polaris, Suzuki, Yamaha and More...

C.V. BOOT KITS

Protect Your Investment with DURA-BOOT!

Motor Master Powersports boot kits only use Dura-Boots, the CV boot that's made in the USA. Dura-boots are made with material specially formulated to withstand the most severe trail and temperature conditions. Dura-boots are super-durable, super long lasting and offer the best protection in the industry!

C.V. JOINT KITS

Motor Master Powersports has a huge selection of replacement outboard and inboard CV joints. Don't feel you need to spend extra money on a half shaft or complete axle assembly? Replacing the CV joint could be the best option to quickly get you back on the trail. Our CV joints are designed to fit your OEM. axle bars and meet or exceed OEM quality.

C.V. REBUILD KITS

Motor Master Powersports Rebuild Kits give you the capability to repair OEM CV joints. Have a hard to find application? Rebuilding CV joints is a great option, designed to allow you to retain the original outboard or inboard housings and rebuild the inner components, you'll save time and money and get back on the trail!

C.V. HALF-SHAFTS

Motor Master Powersports Half-Shafts meet or exceed OEM quality using fully assembled outboard CV joints installed on high strength axle bars with the MMPS Dura-Boot for maximum protection against all conditions! The most common axle failure is a bar breaking or outboard (wheel) joint failure so it only makes sense to reuse the good parts that you can from your original axles... Half-Shafts require you to remove the undamaged inboard CV joint from your OEM axle and install it on the MMPS half shaft, with the new boot and grease that is included. This will insure you will spend more time on the trail and not the trailer...

COMPLETE C.V. AXLES

Motor Master Powersports Complete Axle Assemblies are built to meet or exceed OEM quality. We use fully assembled outboard and inboard joints installed on a high strength axle bar using the MMPS Dura-Boot for maximum protection against all conditions! Don't mess with the rest... With our accurate cataloging and technical experts always on hand to answer your questions or concerns you can buy with confidence, knowing that you're going to get the axle you need to get you on the trail in a hurry. MMPS carries a huge inventory of all the components required to build all the axle shafts we offer to assure that when you need it... We will have it!!

Voodoo Axles

Motor Master Powersports introduces Voodoo Axles for ATV's and UTV's that have lift kits, or extended A-arms, and require long travel suspension. The revolutionary design of these high-strength axles enables them to extend and compress, thereby accommodating long suspension travel
